#### **MEMORANDUM**

EPA Region 5 Records Ctr.

Date: December 9, 2002

Ames Supply Co./EPA File

Voicemail from Mazin Enwiya to Robert Hildebrandt on Wednesday, December 4, 2002,

Mr. Hildebrandt, this is Mazin Enwiya with the USEPA. Thank you for your kind invitation and the follow up. At this point, my suggestion is, I would say it's probably not advisable for me to visit your facility because of the delicate nature of the negotiations that are ongoing right now with all the PRPs involved. What I foresee happening and now if I were to come to your site is that it may be misinterpreted by the other PRPs as our agency basically showing favorable views toward one party versus others and of course at the same time I would probably have to, you know, make the same courtesy visit to other PRPs involved just so it would be a fair process. I hope you can appreciate my position on this, and at this point in time what I'd like to do is invite you to the PRP meeting that we have set for tomorrow. It's at 10:00 alm. Thursday, here at the USEPA offices at 77 W. Jackson in Chicago. It's in room 326. And you're welcome to attend and of course your legal counsel, if they're available, they're welcome to attend. That is basically my position on this, and I hope we can continue to dialogue and # you have any further questions please don't hesitate to call me at 312-353-8414.

COMMENTS

Ames Supply Company is a wholesale distributor to the Office Machine Dealer industry. As a result of some of our internal operations, we generate a very small amount of hazardous waste. We did not ship any off site in 1989. Listed below is a list of what we have presently on our premises.

Oil & Mineral Spirits

110 gallons

Trichloroethane III

55 gallons

Developer

40 gallons

Fixer

17.5 gallons
